

Sub ID	Sub Point	Name	Topic	Issue	Inclination	Summary	Decision Req
1	1	David Parker	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Support with Amendment	Support in principle	Reword "minimum" to "optimum"
1	2	David Parker	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Support with Amendment	Support in principle	Amend "minimum" to read "optimum"
1	3	David Parker	MINDC2: Walkways	B: (B) Minimum total width		Support in principle	Reword "minimum" to "optimum"
2	1	Wayne Wright	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	7m too wide	Reduce to 5m
3	1	Grant Carter	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but feel 7m is too wide. Need flexibility dependent on topography.	Reduce the minimum width
3	2	Grant Carter	MINDC2: Walkways	C: (C) Formed width	Support with Amendment	Support walkways but feel the formed width is too wide	Amend the formed width to read "The formed width shall be 2m where this can be achieved with minimal land disturbance. In areas of difficult topography this width may be reduced to 1.2m"
3	3	Grant Carter	MINDC2: Walkways	D: (D) Clear Zone	Support with Amendment	The standards need to allow for paths through wooded areas / plantations where a 1.5m clear zone on both sides may not be appropriate. Rigid standards may lead to very high ongoing maintenance costs and burden the community.	Make the provisions more flexible to reduce costs without loss of amenity value
3	4	Grant Carter	MINDC3: Clear Zones	A: (iii) Clear zones	Support with Amendment	The requirement for clear zones of 0.4m will have ongoing maintenance costs and may not be appropriate in many circumstances eg having one side of the walkway fenced closer than 1.5m and grazed by the neighbouring farmer may be more appropriate	Make the standards more flexible
4	1	Hugh Gardiner	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but 7m is too wide	Make total width 5m with 2m formed and 1.5m clear zones
4	2	Hugh Gardiner	MINDC3: Clear Zones	A: (iii) Clear zones	Support	Support clear zones being grassed	Easements should be sought for walkways not land purchase, a cheaper and more functional solution especially where walkways cross grassland
5	1	Christopher Ward	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but oppose 7m as too wide	Reduce to a 3m total width
5	2	Christopher Ward	MINDC2: Walkways	C: (C) Formed width	Support with Amendment	Support walkways but oppose a formed width of 2m	Reduce formed width to 1.5m
7	1	GW & M Hatton	MINDC2: Walkways	B: (B) Minimum total width	Oppose	Oppose all the provisions for walkways	Withdraw Section 4.18 in total
7	2	GW & M Hatton	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Oppose	Oppose all bridleways	Remove 4.18 in total
8	1	Department Of Conservation - Bop	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Given the location and widths of the proposed walkways and bridleways they have the potential to remove significant vegetation in ecological areas.	That the width standards are able to be reduced in width in ecological areas or that an ecological assessment of these accessways be undertaken to ensure their design and location protect ecological values.
8	2	Department Of Conservation - Bop	MINDC2: Walkways	E: (E) Walkways construction	Support with Amendment	Any walking tracks should be consistent with the New Zealand Standard	Make specific reference to the New Zealand Handbook for Tracks and Outdoor Visitor Structures SNZ HB 8360:2004
10	1	Ray & Michele Cobb	MINDC2: Walkways	E: (E) Walkways construction	Oppose	Oppose all standards for walkways and bridleways due to high costs, disrupts farming and productivity	Delete 4.18
11	1	Shirley McCulley	MINDC1: Bridleways & Shared Bridleways/Walkways	G: Bridleway construction	Oppose	Oppose all bridleways and walkways	Delete 4.18 entirely
12	1	Erica Walpole	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	7m too wide	Reduce to 2m minimum, keep flexibility
12	2	Erica Walpole	MINDC1: Bridleways &	C: (C) Minimum width	Support with	Bridleways too wide	Reduce to 4m minimum to reduce maintenance costs

			Shared Bridleways/Walkways	unshared bridleway	Amendment		
13	1	Gerald & Annemieke Hart	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but oppose 7m as too wide	Reduce to 4.5m
13	2	Gerald & Annemieke Hart	MINDC2: Walkways	C: (C) Formed width	Support with Amendment	Support but too wide	Reduce to 2m
15	1	Andrew & Susanne Todd	MINDC1: Bridleways & Shared Bridleways/Walkways	G: Bridleway construction	Oppose	Oppose all bridleways	Delete all 4.18 provisions
16	1	Cushla Hume	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but 7m too wide	Reduce to 3m if permiable fencing is used
19	1	David & Shona Purves	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Oppose	Oppose all bridleways	Delete all of 4.18
21	1	Jo Gravit	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Support with Amendment	Support bridleways but too wide	Reduce to 10m
21	2	Jo Gravit	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Support with Amendment	Support but with reduced width	Reduce to 7m
21	3	Jo Gravit	MINDC1: Bridleways & Shared Bridleways/Walkways	H: H - (H) Bridleway Additional Standards	Support	Support bridleways with additional standards 1(h) to provide more easy maintenance and reduce runoff and erosion 1(i) horse trials have the potential to cause water pollution and Code wording can set expectations of their management 1(j) Safety is a major concern and some wording in the Code should provide for this	1(h) Bridleways shall not exceed a 1:10 slope and follow natural contours whenever possible 1(i) Bridlepaths should be at least 10m from waterways except at managed crossings and should be a minimum of 1m above the water table 1(j) All bridleways shall be designed with easy curves to maximise sightlines except where a zig zag is necessary
21	4	Jo Gravit	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support but width may be too wide in some circumstances	Allow flexibility for minimum width of 5m
21	5	Jo Gravit	MINDC2: Walkways	C: (C) Formed width	Support with Amendment	Support but with amendment. In a high rainfall or damp area walkways may need a camber on both sides which is difficult for 2 people to walk on	Change formed surface to minimum flat formed surface of 2m
23	1	Geejae Construction Limited	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Support with Amendment	Support walkways and bridleways but oppose the minimum width of 15m as too wide	Reduce to 10m
23	2	Geejae Construction Limited	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Support with Amendment	Support walkways and bridleways but oppose width of 10m as too wide	Reduce to 7m
23	3	Geejae Construction Limited	MINDC1: Bridleways & Shared Bridleways/Walkways	E: (E) Bridleways & walkways separated	Support with Amendment	Support walkways and bridleways but oppose the seperation of 3m as too wide	Reduce to 1.5m
23	4	Geejae Construction Limited	MINDC3: Clear Zones	A: (iii) Clear zones	Support with Amendment	Support walkways and bridleways but oppose clear zone of 3m as too wide	Reduce to 1.5m
27	1	Ainsworth Farm Trust	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Support with Amendment	Support walkways and bridleways but oppose 15m as too wide	Reduce to 10m total
27	2	Ainsworth Farm Trust	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Support with Amendment	Support walkways and bridleways but oppose 10m as too wide	Reduce to 7m
27	3	Ainsworth Farm Trust	MINDC1: Bridleways & Shared Bridleways/Walkways	E: (E) Bridleways & walkways separated	Support with Amendment	Support walkways and bridleways but oppose 3m seperation as too wide	Reduce seperation to 1.5m
27	4	Ainsworth Farm Trust	MINDC3: Clear Zones	A: (iii) Clear zones	Support with Amendment	Support walkways and bridleways but oppose the clear zone of 3m as too wide	Reduce clear zone to 1.5m

## Summary Report for the 2010 Development Code Minden Bridleways & Walkways

28	1	Deidre Soby	MINDC1: Bridleways & Shared Bridleways/Walkways	C: (C) Minimum width unshared bridleway	Support with Amendment	Support walkways but oppose the minimum width of 10m	The total width should be no more than 5m
28	2	Deidre Soby	MINDC1: Bridleways & Shared Bridleways/Walkways	B: (B) minimum width shared bridleway	Support with Amendment	Support bridleways but the minimum formed width of a bridle should be restricted to 2m	The minimum formed width of a bridle should be restricted to 2m
28	3	Deidre Soby	MINDC2: Walkways	B: (B) Minimum total width	Support with Amendment	Support walkways but oppose the minimum width of 7m as being to wide	The minimum total width should be 2m
28	4	Deidre Soby	MINDC3: Clear Zones	A: (iii) Clear zones	Support with Amendment	Support walkways and bridleways but clear zones should be vegetated with grass or low growth height plants where possible but there needs to be flexibility to allow for taller natives such as pungas etc that could enhance the walk.	Allow for greater flexibility in the clear zone
