BEFORE THE WESTERN BAY OF PLENTY DISTRICT LICENSING COMMITTEE

The Application

Trisha Enterprises Limited applies for a new ON Licence in respect of premises situated at 6/97 Hamurana Road. Ōmokoroa known as **"The Coffee Club Ōmokoroa."**

This is an existing business in which the provision of food is the principal source of sales revenue. It operates as a class 3 restaurant, and this applicant currently operates under a Temporary Authority.

The application was notified on councils' website from the 25th of June 2026, and no objections were received from members of the public.

The days and hours sought are **Monday to Sunday 9.00am to 10.00pm.** These days and hours are within the operative Western Bay of Plenty Local Alcohol Policy.

If they wish to open earlier for food and coffee that is a matter for them to decide.

The applicant has provided a detailed menu of the food options they intend to sell and the low alcohol and non-alcoholic refreshments that will be available.

The food is prepared on site, and the inspector is satisfied that it is of an acceptable variety and price range and that a range of food offered can be provided within a reasonable time of placing an order.

A Building and Planning Certificate has been sought and issued showing the activity meets the Town Planning and Building Code requirements.

REASONS FOR THE DECISION

The application has received positive reports from the Inspector and the Police. The Medical Officer of Health has not reported on the application.

The inspector reports that the amenity and good order of the area is unlikely to be reduced by more than a minor extent and that the applicant has sound host responsibility practices.

The first year of a new licence is often called the 'probationary year' and no doubt the regulatory agencies will monitor the licence from time to time.

Overall, I am satisfied as to the matters to which we must have regard as set out in s.105 & 106 of the Act.

We consider the application on the papers.

This is the applicant's third renewal of the licence. The primary nature of the business will continue to be the sale of food, with alcohol available only in conjunction with food. The criterion for the renewal of this licence is found under section 131 of the Sale and Supply of Alcohol Act 2012 (the Act).

REASON FOR THE DECISION

The application was publicly notified in the following paper and no objections were received.

The Police and MoH have both reported. No concerns regarding the applicant's suitability or the operation of the premises have been raised by either of the reporting agencies.

FENZ also reported on the application with no objection to the granting of a renewed Licence.

The inspector's report indicates that the sale and supply of alcohol appear to have been appropriately managed. The inspector after carrying out due diligence on the application and applicant and not receiving no information of concern regarding the operation of the premises and considers the applicant to be suitable and their proposal for the sale and supply of alcohol is consistent with the Act's purpose and meets the section 131 criteria.

The hours sought are within the hours permitted under the local alcohol policy.

There have been no issues raised regarding the building code or the Resource Management Act.

The licensed area includes the internal floor area and the external seating and garden area. The external area is confined by white fencing. The licensed area is more precisely defined on the plan date stamped as received by Western Bay of Plenty District Council on 06 June 2026. This premises does not require a designation as the principal business is providing meals The Inspector has no concerns with the design and layout of the premises.

When visiting the premises the Inspector found that the manager's register was displayed behind the counter. She advised Jo that this would need to be updated when new staff are employed prior to reopening. No other goods or services were observed, other than food and beverages. During the site-inspection there was no visual evidence of anti-social behaviour such as discarded bottles, cans or litter to indicate the parking facilities are being used to pre-load. There is no information to suggest the premises is associated with any criminal behaviour.

The Inspector is not aware of any concerns relating to noise, nuisance or vandalism relating to licensed premises in the area and the premises is clean, presentable and in keeping with the surrounding with the local area. There is no reason to believe the amenity and good order of the locality would likely to be increased, by more than a minor extent, by the effects of a refusal to renew the licence.

Standing back and considering this application, the Inspector reports that there is nothing to suggest that the granting of this application would not achieve the object of the Act.

Therefore, I am satisfied that this application meets the matters to which we must have regard as set out in s.105 of the Act and is consistent with the purpose of the Act.

THE WESTERN BAY OF PLENTY DISTRICT LICENSING COMMITTEE

The applicant has requested that a supervised designation apply to the licence. A supervised designation has been imposed on previous special licences granted to the club. Given that the events are open to all ages and no certified manager has been appointed, the Inspector considers that a supervised designation may assist in meeting the object of the Act.

The District Licensing Committee seeks a supervised design to be a condition of the special licence.

REASONS FOR THE DECISION

The two reporting agencies – MOoH and the Police have both reported on the application and neither have opposed it.

Daniel Samuelson has been nominated as the person responsible for the sale and supply of alcohol at the events. Daniel holds a current LCQ qualification and has previously managed the bar under special licences issued to the club, most recently in 2021.

It is reported that the applicant has a policy in place to ensure that alcohol is not sold or supplied to the drivers before they race. Further information regarding this policy has been provided in an email supplied to the DLC.

Drinks per person per transaction has been limited to two. To minimise harm from drink driving at the events the applicant is providing local taxi information. The applicant also has a sober driving policy, which includes offering free non-alcoholic beverages to sober drivers and having volunteers available to drive attendees' home if required.

The applicant has provided a response to the Inspector's enquiries, offering further information and context regarding the application. This correspondence has been provided to the DLC for context.

The Inspector after carrying out due diligence on the application and the applicant does not oppose this application.
