1. Introduction

In July 2020, Bay of Plenty Regional Council (BOPRC) granted Western Bay of Plenty District Council (WBOPDC) six new consents relating to Eastern Comprehensive Stormwater Consent:

- Consent 67481-BC.16 River Structure
- Consent 67481-BC.17 Beds Damming and Diversion
- Consent 67481-CC.01 Coastal Dredging
- Consent 67481-CC.02 Occupy Coastal Space
- Consent 67481-DC.05 Discharge to Water
- Consent 67481-LC.05 Earthworks or Excavation

This report examines conditions required for Consent 67481-DC.05 Discharge to Water, which expires 31 May 2055.

2. Purpose of this report

Condition 9.7 of consent 67481-DC.05 requires the consent holder to submit an annual report to BOPRC in November of each year covering:

- a) A summary report of any monitoring undertaken including an analysis of the monitoring results;
- b) Any stormwater network or stormwater infrastructure upgrade works undertaken;
- c) Any stormwater induced erosion, flood risk alleviation, or stormwater quality mitigation measures implemented;
- d) Any incidents resulting in unanticipated contaminants entering the stormwater network, the investigation of the cause of the incidents and any remedial actions implemented to avoid a repeat occurrence of the incident;
- e) An updated Asset Register; and
- f) Any new structures to be included in the consent (Asset Register).

This report covers the period from 1 November 2023 to 31 October 2024.

3. Monitoring

A Monitoring Plan has been developed as per section 7.3(e) and was certified by BOPRC in January 2024 (section 7.6).

Site scoping and health and safety assessments of the freshwater sample sites have been completed. Sampling will commence in the near future.

4. Network or infrastructure upgrade works

No significant works were undertaken during this monitoring period.

5. Erosion, flood risk alleviation, and stormwater quality mitigation measures

No stormwater induced erosion, flood risk alleviation, or stormwater quality mitigation measures have been implemented during this reporting period.

6. Stormwater related incidents

Date	Incident	Location	Cause of incident	Any remedial actions to avoid repeat occurrence
14/05/2024	Manhole overflow to Stormwater	Muir Place, Te Puke	Fat & Wipes	Dip in pipe to be fixed. Line is on 6mnth critical flushing line
25/05/2024	Manhole overflow to stormwater	Milsom Place Te Puke	Fat	Nothing Planned
11/06/2024	Manhole overflow to stormwater	Oxford Street, Te Puke	Paper/wipes	Nothing Planned
06/07/2024	Manhole overflow to Stormwater	Allanah Place, Te Puke	Fat blockage	Nothing planned
08/07/2024	Manhole overflow to Stormwater	Cameron Road, Te Puke	Tree roots	Tree roots removed.
14/10/2024	Manhole overflow to Stormwater	Boucher Avenue, Te Puke	Excessive siltation	Nothing planned

7. Updated Asset Register

No new assets have been added to the asset register during the November 2023 to October 2024 monitoring period, however pursuant to the requirements of Consent Condition 9.7(e), please find the updated asset register attached in Appendix (A).
