2.2 Reasons

- 2.2.1 The Plan Change clarifies the intent of Rules 10.3 (s), (t) and (u) to permit radio and telecommunication facilities to exceed zone height limits (to an extent) if attached to buildings/structures. This includes for amateur radio. All four original submissions supported this. Many of the further submitters in opposition are unlikely to have understood the purpose of the Plan Change.
- 2.2.2 The submission point requesting further changes to Rule 10.3 (s), (t) and (u) is seeking new rules outside the scope of the Plan Change. Notwithstanding this, Rules 10.3 (s) (t) and (u) already apply to all aerials and antennas including those associated with amateur radio and therefore already provide for them as a permitted activity in this case.
- **2.2.3** Council recognises the role of amateur radio operators in the community and suggests a private plan change may be an option for the amateur radio community, noting that Council is obliged to balance the needs of amateur radio with the wider residential amenity needs of the community.

3.0 Whole of Plan Change 51 - Changes to the District Plan First Review

3.1 Amend Rule 10.3 (s), (t) and (u) as follows;

- (s) When attached to a *building/or-structure* (other than a mast, pole or aerial) falling within the District Plan definition of "building/structure") permitted within an activity zone, that complies with the maximum height for the zone for in which it the building/structure is or will be located, the following are provided for and may exceed the maximum height for the zone:
 - (i) Radio and telecommunication a Aerials up to 4m in height;
 - (ii) Dishes not exceeding 1.8m in diameter for Residential/Future Urban/Rural Residential/Lifestyle Zones, and 5m in diameter for all other zones;
 - (iii) Antennas not exceeding 1.2m² in area for Residential/Future Urban and Rural Residential, and not exceeding 2m² in all other zones.
- (t) When attached to a building/structure (other than a mast, pole or aerial) that complies with the maximum height for the zone in which the building/structure is or will be located, a Ttelecommunication or and radio communication facility facilities not covered by sub-clauses (i)-(iii) of clause (s) above, can exceed the maximum height limit for of the zone in which it will be located provided it is contained within the following dimensions:
 - (i) Residential Zones 2m high x 1m wide x 1m long ie 2m3 in volume;
 - (ii) All other zones 5m high x 1m wide x 1m long ie 5m3 in volume.
- (u) Any Ttelecommunication and or radio communication facility facilities (including aerials, antennas, dish antennas and associated mounts) attached to a buildings/structures in (s) and (t) above and which fails to comply with either (s) or (t) above."
